

# Algebraic Techniques - SET 4

## Algebraic shorthand

Instructions: Write in shorthand. Example:  $a \times 3 \times b = 3ab$

1.  $a \times 8 \times b =$  \_\_\_\_\_

2.  $x \times i \times 5 =$  \_\_\_\_\_

3.  $p \times 5 \times r =$  \_\_\_\_\_

4.  $k \times m \times n \times 2 =$  \_\_\_\_\_

5.  $3 \times m \times k =$  \_\_\_\_\_

6.  $c \times d \times 8 \times e =$  \_\_\_\_\_

7.  $x \times 8 \times a =$  \_\_\_\_\_

8.  $e \times f \times 3 =$  \_\_\_\_\_

9.  $e \times f \times h \times 6 =$  \_\_\_\_\_

10.  $a \times 3 \times c \times u =$  \_\_\_\_\_
